DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 7, line 2, "the shape of the radiation pattern" is changed to --a shape of a radiation pattern--.

In claim 12, line 5, "the control circuit" is changed to --the control signal--.

Allowable Subject Matter

2. Claims 1-14 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-13 is the inclusion of the limitation of a plurality of surface-waveguide elements symmetrically positioned about and concentrically spaced from the driven omnidirectional traveling-wave antenna element. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claim 14 is the inclusion of the limitation of the step of concentrically arranging a plurality of broadband/multiband surface-waveguide elements around the driven omnidirectional traveling-wave antenna. It is this

limitation found in the claim, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Kaloi (U.S. Patent No. 4,370,657 teaches a microstrip antenna having a plurality of different radiating elements spaced apart in an end-to-end arrangement, above a ground plane and separated there-from by a dielectric substrate; only one element is fed at its feed point, and energy emanating from the fed element is primarily coupled at one end to parasitic elements by the electric field generated in the fed element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
